DETAILED ACTION

Allowable Subject Matter

Claims 1-31 are allowed.

The following is an examiner's statement of reasons for allowance: The applicant's arguments filed on 07/26/04 are persuasive. The examiner has found numerous references (as cited below) which disclose "a sled supported on said support housing and being movable relative to said support housing in both a horizontal direction and a vertical direction." However, the examiner has not found any art which discloses "a spit containment device configured to receive spit ink, said ink containment device having a fixed vertical position and being horizontally movable in response to movement of said sled."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Urrutia et al (US Pat 6659585) discloses a system and method for draining ink from ink receiving devices.

Harmon et al (US Pat 4853717) discloses a service station for ink-jet printer.

Harmon et al (US Pat 5027134) discloses a non-clogging cap and service station for ink-jet printheads.

Bailey et al (US Pat 6315386) discloses an ink jet maintenance station having acoustic dampening.

Davis et al (US Pat 6682167) discloses reducing printhead servicing noise.
